

## *Multi-head Scale Vertical Form Fill Seal Machine CY-602S*

The multi-head weighing system has high accuracy and with the two servo driven packing machine, the whole machine system has high efficiency and high stability. Also the multi-head packing machine is in wide applications for varieties of products:

- Snacks: cookies, potato chips, chocolate, mixed nuts.
- Frozen foods: frozen vegetables and fruits, frozen meat and seafood.
- Seafood and meats: shrimps, clams, scallops.
- Dairy products: shredded cheese, cheese cubes.
- Fresh produce: cherry tomatoes, baby carrot, chopped vegetables, salad.
- Fresh fruits: all type of berries, diced fruits.

### **Features:**

#### Packing Machine

- ◆ 7"Color Touch Panel- simple operating and user friendly.
- ◆ PLC control-programmable logic control.
- ◆ Servo motor film pulling - easy setting for the bag length and accurate positioning.
- ◆ Seal jaws servo motor controlled-reduced air usage and enhance sealing sensitivity.
- ◆ PID temperature control on each heater to provide quality sealing - reducing the waste of the film.

#### Weighing System

- ◆ All stainless steel SUS304 construction
- ◆ Windows operation system
- ◆ 17" color touch screen
- ◆ PC panel with wireless online support
- ◆ 99 sets of programmed memories

## Specifications:

MODEL	CY-602-S
Bag Type	<b>Pillow Bag</b> 
Bag Size	Standard - W:100-210*L:100-280mm / Large - W:200-300*L:200-400mm
Film Size	Standard - 230-450mm / Large - 430-630mm
Dosing Method	Multi-head computerized scale.
Capacity	15~40 bags/min.(subject to film quality, filling volume and product conditions.)
Voltage	220V/60Hz
Machine Weight	750kg.
