

Automatic Mineral Water Filling Machine CGF18-18-6

This automatic mineral water filling machine mainly used in the water filling operations, the three function of bottle washing, filling and capping are composed in one body of the machine, the whole process is automatic, it is conveniently trunked to adjust the machine to fill various types of bottles, the filling operation is faster and more stable due to the advanced filling valve technology, The famous brand programed controller (PLC) is adopted to control the machine runs automatically. It is ideal preferred equipment for beverage maker.

Application:

Function: washing-filling-capping system	Control: PLC
Suitable: PET bottle with screw cap	Bottle Size: 200-2000 ml
Filling System: Normal Filling	Capacity: 6,000-8,000 BPH For 250-500ml
Application: Still water, Pure water, Mineral water and ect .	

Technical parameters:

Model	CGF18-18-6
Capacity :(for 250-500ml)	6000-8000 BPH
Suitable bottle shapes	PET Circular or square
Bottle diameter	50-120 MM
Bottle Height	150-320 MM
Compressor air	0.3-0.7MPA
Washing Medium	Aseptic Water
Washing pressure	0.06-0.2mpa
Application	Still water/Pure water/Mineral water
Power	5.05 kw
Overall Dimensions	2760*2060*2250 mm
Weight	3500kgs
