

Full Servo Plastic Cup Making Machine HEY12

The cup making machine is Mainly for the production of variety plastic containers (jelly cups, drink cups, package containers, etc) with thermoplastic sheets, such as PP, PET, PE, PS, HIPS, PLA, etc.

Specification:

Model	HEY12-6835	HEY12-7542	HEY12-8556
Forming Area	680*350mm	750*420 mm	850*560 mm
Sheet Width	<680 mm	<750 mm	<850 mm
Max. Forming Depth	<180 mm	<220 mm	<180 mm
Heating Rated Power	130kw	140kw	150kw
Dimension	5200*2000*2800mm	5400*2000*2800mm	5500*2000*2800mm
Machine Total Weight	7T	8T	9T
Applicable Raw Material	PP, PS, PET, HIPS, PE, PLA		
Sheet Thickness	0.2-3.0 mm		
Work Frequency	<35		
Motor Power	15kw		
Power Supply	Three Phase 380V/50HZ		
Pressure Supply	0.6-0.8 Mpa		
Max.air Consumption	03.авг		
Water Consumption	20M3/h		
Control System	PLC Delta
