

Bottle Shape Pouch Automatic Packaging Machine HJD-Y50Y

Introduction:

- PLC controller and display select Omron with high reliability, high stability and extremely low failure rate
- Servo motor control bag system, high precision with bag making
- Electric eye selects Sino-German joint venture Julong Photoelectric
- Temperature controller uses Omron
- The material feeding mechanism contacts the material part uses imported SUS 304 stainless steel.
- Cylinder and solenoid valve use Taiwan brand AirTAC
- Switch and power supply use American Bonner
- The relay uses Omron
- Proximity switch selects Taiwan Rico

Specification:

Model	HJD- Y50Y
Speed	10-50bags/min
Measuring range	1-50ml
Bag size	L50-170mm W25-45mm
Total power	2kw
Voltage	220V/50-60Hz
Suitable material	Paper/PE,PET/Aluminum/PE,Nylon/PE, filter paper etc.
N/W	320kg
Machine size	L830*W1150*H2100mm(L*W*H)
