

DXDYS-496 Coffee Pod Packing Machine

Features:

1. Suitable for packaging powder materials such as tea powder, coffee powder and Chinese medicine powder etc.
2. Can finish the function of bag forming, measuring, filling, pressing, sealing, and cutting etc.
3. Adopt PLC to control the whole machine operation, touch screen operation interface, compact structure, man-machine interface design, easy operation, easy adjustment and maintenance.
4. All contacting parts with SUS304 stainless steel, to ensure product hygiene and reliability.

Specification:

Model	DXDYS-496
Bag Size	Φ55mm
Packing Range	4-10g
Machine Weight	1000kg
Air Source	≥0.6m ³ /min
Packing Speed	10-15bag/min
Sealing Type	filter round bag sealing
Power/Voltage	220V/50HZ/3.5KW
Machine Size	L1500*W1210*H2120mm
