

## ***TOPY-VP420/VP520/VP620/VP730 Vertical Form Fill Seal Packaging Machine for Small Sachets Pouch***

Economic VFFS machines provide simplicity and efficiency for food and non-food applications while using a roll of film to make bags. They specifically designed for the wrapping of a wide range of product types in medium to small-sized bags and capable of packing up to 100 bags per min maximum.

### **Features:**

1. Entire machine design is more optimized for more convenient operation.
2. Compact machine structure for more stable working.
3. SS304 machine frame with sand blasted treatment realizes nice appearance.
4. Key components are specially designed, fast packing speed.
5. Servo controlling system: Intelligent adjustment with higher accuracy is more flexible for packing different products.
6. Bag types: 3 sides seal bag, pillow bag (w/o hanging hole, and chain pack option)
7. Filling systems: multi-head weigher, auger scale, volumetric cup filler, liquid pump and so on.

**Technical information:**

<b>Model No.</b>	<b>TOPY-VP520</b>	<b>TOPY-VP620</b>	<b>TOPY-VP730</b>	<b>TOPY-VP420</b>
Bag Size	L 80-350mm W 100-250mm	L 80-350mm W 100-250mm	L 200-400mm W 140-350mm	L 70-300mm W 60-200mm
Bag Speed	15-60bags/min	15-60bags/min	10-50bags/min	10-70bags/min
Production Capacity	2kg	3kg	5kg	1kg
Film Width	220-520mm	220-620mm	340-800mm	120-420mm
Film Thickness	0.04-0.1mm	0.04-0.1mm	0.05-0.12mm	0.03-0.1mm
Automatic Grade	Automatic with PLC control system			
Material of Package	Heat seal roll film, single-layer PE and laminated film.			
Function	Forming, Filling, Sealing			
Machine's Material	Stainless steel 304			
Certification	CE, ROHS, ISO9001
