

Automatic Self-adhesive Labeling Machine

Automatic double side labeling machine belongs to the lateral labeling machine, suitable for flat bottle, square bottle of single side & double side labeling, such as flat shampoo bottles, lubricating oil flat bottle, liquid soap ect.

Application

1. For label: self-adhesive labels, self-adhesive film, electronic supervision code, bar code, etc.
2. Applicable products: Requires the side plane, side sweeping surface, the circumferential surface attached label.
3. Industry: Widely used in cosmetics, daily chemical, electronics, pharmaceutical, metal, plastics and other industries.
4. Application examples: Head & Shoulders shampoo flat bottle labeling, Shell Lubricants flat bottle labeling.

Working Process

* Core Working principle: The sensor detects the flat or round bottle after bottle to return the signal to the labeling control system, the control system in place to control the motor sends label and attached flat bottle or round bottle labeling products subject position, flat bottle or round bottle label products through the overlying unit, the label affixed to the product coated on a label attached to the action is completed.

* Procedure: put the product (which can be accessed line) -> Product delivery -> Products minutes away -> Product Guide is -> Labeling (device automatically) -> Cover Standard -> collect the labeling products.

Application

This one is a side labeling machine, suitable for single and double side labeling of flat bottles, square bottles, such as shampoo flat bottles, lubricating oil flat bottles, hand sanitizer bottles, etc. The two sides stickers are attached at the same time, this improves production efficiency.

Technical Parameter

Driving Mode	Servo motor control system
Speed(pcs/min)	30-200 (depends on bottle and label size)
Operating direction	Left or Right
Conveyor Speed(m/min)	≤35
Labeling Accuracy	±1.0 mm
Inner diameter of label roll	76 mm
Outer diameter of label roll	350 mm(max)
Suitable label size	Width 15-110 mm length 15-300 mm
Suitable labeling products size	Can customized depends on client product
Printer use air	5kg/cm ²
Voltage (In China)	110V/220V/380V
Power(w)	600W
Weight(kg)	260
Machine size	1800(L) 800 (W) 1300 (H) mm
