

Automatic Single/Double Sides Self-adhesive Labeling Machine STL-200

Brief Introduction:

This machine is suitable for the surface labeling of the square, flat and round bottles, widely used for medicine, household chemicals, foodstuff, and cultural supplies and so on.

Features:

1. Automatically label 1 or 2 side, or wrapping around on round bottle (optional).
2. Adopting Taiwan PLC control unit and Panasonic motors
3. Use easy operation large touch sensitive screen in English
4. Adopting Germany label sensor
5. Adopting ITA object sensor
6. Can be equipped with coding machine or printing machine, print clearly. (optional)
7. High labeling speed and high precision

Parameter:

Model	STL-200
Speed	40~100pcs/minute
Suitable label roll inner diamet size	Φ75mm
Suitable label roll outside diamet size	Φ350mm maximum
Drive	servo motor driven
Label Size	width : 15~200mm length : 15~300mm
Precision	±1mm
Power	2.5KW
Coding Device	Ribbon Coder
Voltage	AC 220V ; 50Hz
Weight	300KG
Dimension	2500×1300×1500MM
