

## Automatic High Speed Candy Pillow Packaging Machine HTL-A800

### Features:

- Microcomputer automatic control, large screen contact man-machine interface, convenient and fast parameter setting.
- Automatic pond regulation greatly improves production efficiency.
- The servo motor continuously compensates, and the bag length is set in one step, which saves time and film, and the package is sealed and beautiful.

### Scope of application:

It is suitable for high-speed pillow packaging of square, spherical, round, cylindrical, button and oval shaped candy and solid blocks

### Technical Parameters:

Model	HTL-A800
Packing speed	200-1000 p/min
Package specification	(L) : 10-55mm
	(W) : 10-30mm
	(H) : 4-25mm
Packaging film width	≤180mm
Dimensions	3200*1200*1500mm
Voltage	380V/50Hz
Total power	4.5kw
Total weight	900kg
