

## *ALT-A Auto Labeling Machine*

This labeling machine for round bottles is one of the updated products of our company. It has a simple and reasonable structure, which is easy to operate. The production capacity shall be adjusted steplessly according to the different sizes and characteristics of the bottles and the label papers. It can be applied to the various bottles for food, medicine, and cosmetics, etc. Whether it is single or double-sided labeling, transparent or nontransparent self-adhesive labels for case bottles and flat bottles or other containers will certainly satisfy the customers.
