

Honey Stick Bag Packing Machines

These Honey Stick Bag Packing Machines expertly fill and seal honey or other liquid into stick bags, ensuring consistent quality and hygiene. Equipped with an intuitive user interface, customizable settings, and high-speed operation, they cater to various production needs, from small-scale batches to large-scale outputs. Built with durable materials for long-lasting performance, they reduce waste and enhance productivity. Ideal for food industry professionals, our machines simplify packaging, ensuring a clean and efficient process.

Features:

- Hanging stick bag makes it more beautiful and attractive.
- Sealed frame structure makes it waterproof and dustproof.
- Automatic alarm when machine is broken down.
- The film pulling is driven by double servo motor with few friction force and high speed.
- Full 304 stainless steel frame makes it long service life.
- High working efficiency, Low labour cost.

Technical Parameters:

Model	Honey stick packing machine
Speed	20-40 bags/minute
Bag style	Back seal, 3 or 4 side seal
Packing range	5-20 g
Bag length	50-160mm
Bag width	25mm
Voltage	AC220V / 50Hz / 3.7kw
Air Consumption	0.4m3/min, 0.6MPa
Dimensions	1720*900*2270 mm(L * W * H)
Machine weight	660kg
Construction	Frame, electric cabinet and food contact parts are made of SUS304
