

DZH-200 Automatic Cardboard Machine

The DZH-200 high-speed cardboard machine is designed for packaging pharmaceutical plates, pillow packs, flexible tubes, bottles, ampoules, and other similar products at a speed of 150-200 boxes per minute.

Features

1. PLC control, frequency conversion of speed regulation, and international famous brand electrical components.
2. Adoption of a human-machine interface, a continuous cartoning system, and the adoption of an international advanced chain-row structure.
3. Equipped with a paper folding machine, the paper unloading speed is fast and smooth.
4. Adopting a multi-group suction head of a rotating box opening method, accurately placing the box.
5. The pushing material adopts a multi-pusher type rear feed structure.
