

KZF550B Model Automatic Robot Unpacking, Packing and Sealing Integrated Machine

Features:

- PLC control, human-machine interface operation, with automatic counting, automatic coding, automatic unpacking, automatic packing, automatic sealing and other functions.
- Automatic palletizing system: can be adjusted according to the size of the box and the coding method
- Fast packing speed: the packing frequency is not less than 10 times per minute.
- The servo drive mechanism is stable and reliable.
- Strong compatibility: each adjustment part is equipped with an adjustment hand wheel and a scale,
- It has functions such as fault alarm, material shortage alarm, no box alarm, and jam alarm

Parameters

Carton size range	Maximum: L550xW350xH350mm Minimum: L300xW180xH150mm
Packaging speed	The manipulator works 10 times/min, depending on the case packing layers.
Air pressure	0.6MPa
Power supply	220V/50Hz
Power	5.5kw
Dimensions	L4000xW2900xH1850mm
Equipment size	1.3ton
