

## *JG-16Z Fully Automatic Flowmeter Filling Machine (16 heads)*

This fully automatic filling machine is designed and manufactured using the latest domestic technology, made entirely of stainless steel, and meets hygiene standards. It has the advantages of fast filling speed, wide filling range, and high filling accuracy. Moreover, this filling machine adopts a computer automatic control system with full touch screen control, ensuring safe and hygienic production process, easy operation, and convenient manual and automatic switching. The equipment is mainly used in various industries such as biology, pharmaceuticals, food, and daily chemical products.

### **Features:**

1. Using a card bottle mouth device, after accurately positioning the filling bottle mouth, the filling head is inserted into the bottle to achieve filling.
2. Easy to adjust the filling volume, easy to operate, and can quickly replace bottles of different specifications for filling.
3. The machine is made of high-quality stainless steel material, which meets GMP requirements

## Technical parameters

Model	JG-6Z	JG-8Z	JG-10Z	JG-12Z	JG-14Z	JG-16Z
Filling nozzle	6 nozzles	8 nozzles	10nozzles	12 nozzles	14 nozzles	16 nozzles
Filling Speed	0-36	0-48	0-60	0-72	0-84	0-96
	per/min	per/min	per/min	per/min	per/min	per/min
Filling scope	50~500ml, 100-1000ml, 500-5000ml					
Power Supply	220/380V 50Hz					
Power:	≤2KW					
Filling Precision	±2-5ml ≤2% standard filling dosage					
Machine Size:	L2000 × W1200 × H2100mm					
Air pressure:	≤0.6~0.7Mpa					
Air consumption	3-15 M <sup>3</sup> /Hr
