

SUNHAN

SH-BIB01D 2 Heads Servo Rotor Pump Semi-Automatic Liquid Fertilizer Maple Syrup Oil Bag-in-box BIB Filling Machine

Main Feature

- ▶ This machine can take out the caps, vacuum, fill liquid and nitrogen, tightening caps in one machine.
- ▶ Controlled by servo rotor pump, it's suitable for packaging liquid or viscous paste, it has high filling precision.
- ▶ Multi-filling nozzles can be customized as needed.

Parameter

- Voltage: 220V/110V 50-60Hz
- Power: About 2.3kW
- Production Speed: About 450bags/h(based on 3L filling volume)
- Filling Range: 1-30L(Can be customized)
- Filling Accuracy: $\pm 0.5\%$ (for uniform materials like peanut butter)
- $\pm 1\%$ (for particle-containing materials like jam, chili sauce)
- Filling Pump: Servo Rotor Pump
- Air Pressure: 0.6-0.8Mpa 0.5m³/min
- Machine Weight: About 380kg
- Machine Size: About 1510*950*1650mm(L*W*H)
