

## *SH-XG440B Automatic High Speed Laundry Detergent Engine Oil Spray Bottle Spindle Capper Inline Capping Machine*

This high speed capping machine can tighten spray bottles, dropper bottles and pump head bottles stably and fast, the working speed can reach 50-80 bottles/min. This spindle capping machine is with bottle guiding device which is adjustable according to bottle width and can prevent from bottles falling down during transporting. This ensures the capping speed and effect. This screw capper is suitable for food, beverage, cosmetics and pharmaceutical industries.

### **Main Feature**

- ▶ High working speed, it can cap 3000-5000BPH.
- ▶ It can work with automatic filling and labeling machine to realize automated production.
- ▶ It is suitable for capping dropper bottles, spray bottles, pump head bottles.
- ▶ With guiding conveyor to clamp bottles during capping.

### **Parameter**

- Machine Model: SH-XG440B
- Voltage: 220V/110V 50-60Hz
- Power: 2kW
- Production Capacity: 3000-5000 BPH (depending on bottle & cap size)
- Suitable Bottle Diameter: 35-120mm(Can be customized)
- Suitable Bottle Height: 60-200mm(Can be customized)
- Machine Size: About 2000\*900\*1600mm(Only Capper)
- About 3453\*1393\*2243mm(Capper with cap elevator)
- Machine Weight: About 300kg(Only Capper)
- Package Size: 2060\*1100\*1840mm(Only Capper)
- 2340\*890\*1400(Cap elevator)
- Package Weight: 600kg(Only Capper)+219kg(Cap elevator)
