

## *JS-32S Automatic Nylon PLA Corn Fiber Flat Bag Herbal Scented Tea Packaging Machine*

The automatic flat tea bag packaging machine adopts multi-head electronic scale measurement method, which is suitable for single material or mixed packaging of multiple materials.

The machine is suitable for triangular inner bag and outer bag packaging of various small particle materials such as green tea, black tea, oolong tea, chrysanthemum tea, ginger tea, barley tea, mint tea, wolfberry tea, scented tea, herbal tea, etc.

### **Feature**

1. This machine can automatically complete the functions of measuring, filling, bag making, sealing, cutting, counting, and finished product delivery.
2. The main feature of this machine is that the inner bag and the outer bag can be packed at one time, which avoids direct contact with the material by hand and improves the efficiency.
3. The inner bag adopts ultrasonic sealing, the cut is smooth and the seal is firm.
4. Adopt intelligent PLC control, set parameters through touch screen, easy to operate.
5. The multi-head electronic scale can measure multiple materials at the same time, and realize the mixed packaging of multiple materials.

**Specification**

|                 |                           |
|-----------------|---------------------------|
| Filling Range   | 1-7g                      |
| Bag Length      | 60-100mm                  |
| Bag Width       | 40-80mm                   |
| Air Consumption | ≥0.6Mpa 0.4m³/min         |
| Packing Speed   | 20-40 bags/min            |
| Power           | 380V, 50/60Hz, 6.5KW      |
| Machine Weight  | 750Kg                     |
| Machine Size    | 1470(L)*3420(W)*2110(H)mm |
