

JDZ-120 Automatic Cartoning Machine for Blister

This equipment is new model developed based on integrated domestic and foreign technology. It is the high technological product which has incorporated pneumatic-photo-electro-mechanic and improve by a large on performance of equipment and working efficiency. It realizes encasing fast, keep steady running and reliable under fast running.

This machine is suitable for automatic feeding product of multi-variety multi-specifications into carton (either for blister or bottle). Adjust automatic feeding structure conveniently, setup quantity of blisters on touch screen randomly. On line product feeding and detecting, leaflet folding (1-4folds) and feeding, leaflet detecting, carton opening and forming, products and leaflet pushing into carton, printing batch number, sealing carton with tuck-in or hot melt glue device. Automatically reject the product which is lacking of leaflet and finished product output.

Features:

1. International famous brand of electrical component such as PLC touch screen, frequency inverters, etc.
2. Adopt human-machine operation system.
3. Automatically stop when machine is overload.
4. Automatically rejection for lacking of product or leaflet.
5. Automatically trouble display, Alarm and count finished products.
6. Stable performance, operation is easy.

Item		Parameters
Encasing speed		30-120 boxes /min
Box	Quality requirement	250-350g/m ² 【Base on carton size】
	Dimension range (L×W×H)	(65-125)mm×(30-85)mm×(12-50)mm
Leafle	Quality requirement	60-70g/m ²
	Unfolded leaflet specification	(80-250)mm×(90-170)mm
	Fold range	【1-4】 Fold
Compressed air		Working pressure
Air consumption		120-160L/min
Power supply		220V 50HZ
Main motor power		0.75kw
Machine dimension (L×W×H)		2150mm×1140mm×1800mm
Machine weight		1100kg
