

SBH Three Dimensional Mixer

This machine is suitable for mixing dry powder material of pharmaceutical, chemical and food industries. It is used in mixing evenly and quickly between different proportion and fineness of materials.

The working principles when the machine is in operation. Because of the running actions of the mixing tank in multi-direction, the derivation of the various kinds of materials are sped up in the process of mixing. At the same time, the phenomenon is avoided that the congregation and segregation of the material is gravity ratio caning due to the centrifugal force in the normal mixer and extremely good effect can be obtained.

TECHNICAL PARAMETER

Model	SBH-5	SBH-10	SBH-20	SBH-50
Total Volume (L)	5	10	20	50
Mixing Volume (L)	4	8	16	40
Rotating Speed (r/min)	1-15	1-15	1-15	1-15
Power (KW)	0.25	0.37	0.37	1.1
Overall Size (mm)	600×1000×700	650×1000×800	700×1000×900	1200×1400×1200
Weight (KG)	150	180	200	300
