

PASTE & LIQUID FILLING MACHINE

Features:~

- ❖ Stainless steel part , single or double nozzle
- ❖ The horizontal pneumatic paste filling machine for jam/honey uses the piston measuring mode and compressed air as the power to work without any other power supply and can work at an explosive or combustible circumstance by just stepping on the pedal.
- ❖ The filling range can be adjusted lightly, safe, reliable and easily used.
- ❖ All the parts contacted with the material are made of stainless steel.
- ❖ The horizontal pneumatic paste filling machine can be changed into double nozzles, Which can fill synchronize and raise working efficiency.
- ❖ It can be used in the chemical , food, cosmetic, medicine, pesticide, the lubricating oil and other fields. It can be suitable for both the liquid and the horizontal cream paste like jam, honey etc.
- ❖ This pneumatic paste filling machine can fill the bags or bottles quantitatively and at an regular time and it is easy to operate.
- ❖ This horizontal paste filling machine is mainly for air power, the customer shall bring your own pneumatic equipment(air compressor).

Specification :~

Model	G1WGD
Filling Quantity	2500ml
Rated Air Pressure	4-6kg
Filling Speed	0-50bottles/min.
Filling Accuracy	±0.5% - ±1%
Filling Range (ml)	300-2850
Voltage	220V ±5V
Power	10W
Current	1A

* Designs and specifications are subject to change for improvement without prior notice.
