

## Automatic Cellophane Wrapping Packaging Machine KW-ZYB300

KW-ZYB300 series automatic packaging machine is suitable for pharmaceutical, health care products, food, cosmetics and tobacco industries. It is used as a bundle of small boxes and replaces the middle box. It is especially suitable for medicines and health products with high quality packaging requirements. Etc., is a new generation of ideal product packaging machinery.

### Technical Parameter:

Packing speed	10-40 Package/minute
Package dimensions	L(300-80)×W(200-50)×H(125-30)mm
Packaging material	BOPP Smoke filmPVC
Thickness	0.021-0.028mm
Inner diameter	Φ75mm
Width	Depending on package size
Sealing temperature	100-150°C
Power supply	3phases 5 wires 50Hz/AC 380V
Integrated noise	<69DB(A)
Working pressure	≥0.3Mpa
Total power	3.5KW
Dimensions	1800*850*1200mm
Weight	500kg
