

Semi-Automatic Tube Filling And Sealing Machine

- This equipment is used for filling and sealing plastic hoses and aluminum-plastic pipe products.
- Cosmetics industry: eye cream, facial cleanser, sunscreen, hand cream, body lotion, etc.
- Daily chemical industry: toothpaste, cold compress gel, touch-up paste, wall patch, paint, etc.
- Pharmaceutical industry: cooling oil, ointment, etc.
- Food industry: honey, condensed milk, etc.

Product Parameter:

Parameter	Value
Filling range:	20-200ml
Production speed:	10-30 pcs/min (different according to different products)
Sealing pipe diameter range:	16-50mm
Hose height range:	80-220mm
Voltage:	220V 50/60HZ
Air pressure:	0.4-0.6Mpa
(Length*Width*Height):	1200mm*750mm*1390mm
Machine weight:	350KG
