FKP-801 Labeling Machine Real Time Printing Label

FKP-801 Labeling Machine Real Time Printing label is suitable for instant printing and labeling on the side. According to the scanned information, the database matches the corresponding content and sends it to the printer. At the same time, the label is printed after receiving the execution instruction sent by the labeling system, and the labeling head sucks and prints For a good label, the object sensor detects the signal and executes the labeling action. High-precision labeling highlights the excellent quality of products and enhances competitiveness. It is widely used in packaging, food, toys, daily chemical, electronics, medicine and other industries.

Technical Parameters:

Parameter	Data
Label Specification	adhesive sticker, transparent or opaque
Labeling Tolerance(mm)	±1
Capacity(pcs/min)	10 ~ 25(According to label size)
Suit product size(mm)	L: 50 ～ 1500 ; W:20 ～ 300; H:≥0.2 (Can customization)
Suit label size(mm)	L: 50 ~ 250; W(H): 10 ~ 100(Can customization)
Machine Size(L*W*H)(mm)	≈1650*900*1400
Pack Size(L*W*H) (mm)	≈1700*950*1450
Voltage	220V/50(60)HZ;Can be customized
Power(W)	750
N.W (KG)	≈200
G.W(KG)	≈220
Label Roll	ID: ＞76; OD:≤280
