

AL600 Front and Back Labeling Machine

AL600 Front and Back Labeling Machine uses self-adhesive label, can simultaneously label front and back of square, flat, round and ellipse bottles. Can also label on only one side. AL600 Front And Back Labeling Machine is manufactured in high quality control and setting the developed control system of AXUS design. Every system designs all achieve the best condition and the best stable in any environment. Even in the fast speed, the machine could remain exactly labeling, let your product show high quality sense to attract consumer's eyes and become the focus in the market. Anyone could not control oneself no buy your product.

Suitable Industry: Pharmaceutical / Medical, Biotechnology, Food, Beverage, Cosmetic, Chemical, Plastic...etc.

Specifications:

Labeling Speed	Max. 250 bottles/minute
Labeling Drive	5-phase stepper motor
Control Interface	Touch Screen Control Panel
Max. Products Size	(W) 200mm × (D) 120mm × (H) 330mm (or on request)
Min. Products Size	(W) 25mm × (D) 50mm × (H) 30mm (or on request)
Core Diameter	76mm (3")
Label Roll O.D.	380mm Max. (15")
Voltage Supply	AC 110/220V 50/60Hz 1Phase
Power	1200W
Dimension	(L)2400mm × (W)1720mm × (H)1490mm
Weigh	Approx. 240kg
Material	Frame and main components are made from SUS#304 stainless steel and anodized aluminum.
