

Semi-Auto Sealing, Cutting and Shrink Packaging Machine

Shrink wrapping machine is widely used in electron, food, printing, pharmaceutical, beverage, flooring and ceramics industries for batch shrink packaging. Besides, it is also suitable for various shrink films including PVC, PP, POF and PE.

Advantages

1. Shrink wrapping machine adopts international leading helical airflow technology to achieve optimal shrink effect.
2. Daily production capacity of semi-auto sealing cutting and shrink packaging machine is up to 20,000 to 30,000 pieces. Thus this shrink wrapping equipment is suitable for batch production.
3. Shrink wrapping machine adopts motors from famous brand manufacturers so as to meet heavy duty and long operation time working requirements.
4. Semi-auto sealing cutting and shrink packaging machine is equipped with three-layer insulating device. Power consumption per hour is only 5 to 7 kW.
5. Equipped with L-shaped automatic sealing and cutting machine, shrink wrapping machine is able to achieve automatic packing.
6. Semi-auto sealing cutting and shrink packaging machine adopts imported main power switch and electron speed regulator.

Parameters

Model	FL-5045T	SM-4525
Max Sealing Dimension	L500 × W400 mm	L1000 × W450 mm
Max Packing Dimension	L500 × W400 × H350 mm	L1000 × W4500 × H250 mm
Rated Power	1Φ/220V 1.2Kw/h	1Φ/200V/3Φ380V 6Kw/h
Working Efficiency	800-1000/h	2000-3000/h
Overall Dimension	L1400 × W700 × H1000 mm	L1330 × W750 × H1400 mm
Net Weight	95 kg	170 kg
