

XT-4510 Box diagonal sealing labeling machine

1. Diagonal is suitable for various size box sealing and labeling, is widely used in automatic sealing labeling medicine, daily chemical and food industry
2. The man-machine interface system is advanced and compatible, easy operation, complete functions, has a wealth of online help function
3. The machine has the advantages of simple structure, compact structure, convenient operation and maintenance
4. The well-known brand of motor drive, the feeding speed stable, reliable
5. The general shape of the correction mechanism, the diameter of the material without any replacement parts, rapid positioning adjustment Note: Complete sealing and labeling, such as four kinds of form (upper surface, lower surface sealing and labeling, two diagonal sealing and labeling)
6. Special pressing device, ensure that the labeling kit stability, greatly improve the labeling accuracy, especially suitable for small and light box
7. Automatic optical inspection, have nothing item without labeling, and without label automatic correction or alarm and automatic detection function, prevent leakage and waste

Tech Parameters

Model / technical parameters	XT-4510
Labeling speed (pcs/min)	40-120pcs/min (relate to material and label size)
Labeling accuracy (mm)	±1.0mm (material and label sizes are not counted in)
Material size (mm)	(W) 20-200mm (H) 20-300mm
Roll inside (mm)	φ76mm
Roll outer side diameter (mm)	(Max)Φ350mm
Machine size (mm)	(L) 1800* (W) 850* (H) 1600(mm)
Power supply	AC220V 50Hz/60Hz 800W
Work pressure	0.4-0.6Mpa
