

## *Self Adhesive Vial & Bottle Labelling Machine* **SBSL-300**

### **Description:**

Shree Bhagwati Pharma Machinery India's market leader in design and manufacture of self adhesive Labelling machinery for the packaging industry.

Since Shree Bhagwati Pharma Machinery is pioneered the development of Labelling machinery and its technology has grown to be a market leader working with many blue chip companies world wide.

Our machinery is sold within many varied industries such as: pharmaceutical, toiletries, cosmetic, beverage and food etc.

**SBSL-300** Automatic Self Adhesive Vial & Bottle Labelling Machine is used for labeling of round container which are previously filled and sealed. No change parts are required for change over of container size.

Self Adhesive Vial & Bottle Labelling Machine conveyor will receive container from in feed turntable, it will be separated by the feeding roller assembly to maintain the pre determined space between the two container according to the label length and container diameter. Label is placed on the container immediately when it will be sensed by the container sensor, it ensures instant adhesive of label's edge. Then it passes through the pressing unit resulting in precise registration and crease-free application.

It does not require any change parts for change in container diameter or label sizes. It can handle the diameter range from 20 mm to 90 mm and label height from 10 mm to 115 mm, change over can be done with in few minutes, label height from bottom can be also adjustable for different kind of containers

## Salient Features of Self Adhesive Vial & Bottle Labelling Machine

A total CGMP model

- High Production Speed up to 300 containers/min and other higher model can give up to 300 containers / min.
- S.S. 304 Construction.
- Accurate label placement.
- Micro processor Control System.
- Full Pharmaceutical & Packaging security package system.
- Secondary Pressing unit.
- Any kind of printing device can be accommodated with machine.
- Imported Gear Motor for Conveyor & Pressing unit.
- Imported Gear Box for Conveyor & Pressing unit.
- A.C.Frequency Drive for main drive.
- In built Speed Indicator & Counter.
- Stepper Motor with Controller.
- Imported Sensor for Label & Container.

**a)** Specially designed machine useful to Apply labels on Round Products (full body or partial Labeling) as well as on Flat / Oval products (Single side labeling)

**b)** Any type products can be accommodating like Aluminium, Glass, Plastic & etc.

**c)** No change parts required due to special designed mechanism

Model	SBSL-300
Label Height	8mm to 90 mm
Standard Label Length	12 mm to Unlimited
Core Dia	300 / 400 mm
Core Dia	75/76 mm
Electrical	220 VAC, Single Phase, 50/60 Hz, 1.2 Amp, 0.5 Kw
Speed*	Up to 300 labels per minute Conveyor Height 856-960 mm
Overall Dim (LxWxH)	1825x715x1550 mm
(Depending on product and label size)
