

Automatically Seal Cut Fill Machine BG32A

Specifications

1. We are profession in Packing Machine Area
2. Fast delivery and good service
3. Have CE guarantee quality

KUNBA series of filling machine widely used in filling and sealing various kinds of plastic cup for liquid. It can automatically finish the process of filling, sealing, film cutting, coding, printing, sterilizing in ultraviolet. And Automatic fill -seal-cut machine can automatically fill and seal at high speed from cup sending, filling, sealing, photoelectric prod dreading to cutting and discharge.

Technology Parameters

MODEL	BG32A
Voltage	AC220-240V/50Hz
Power	2.5KW
Seal Material	PE PP PET/PE
Capacity	960cups/h
Filling accuracy	less than 1.5%
Tempature	0-400c
Dimenssion	2250*540*1400MM
G.W	500KG
