

Barreled 20L Water Production Line QGF-600

This 5 gallon bottle washing / filling / capping machine is for filling mineral water, distilled water and purified water into barreled/bucket/jar. The barrel water drink filling machine works reliably and efficiently based on the compact structure and high automatic technology. This barrel water drink filling machine is the fully automatic barreled water producing equipment combined with machine, electronic and pneumatic components.

Technical Parameters:

Model	QGF-100	QGF-300	QGF-450	QGF-600	QGF-900
Filling heads	1	2	3	4	6
Volume(L)	18.9	18.9	18.9	18.9	18.9
Capacity(b/h)	100	300	450	600	900
Gas consumption(m ³ /min)	0.37	0.6	0.8	1	1.5
Moto power(kw)	1.38	3.8	5.6	7.5	9.75
Weight(kg)	680	1500	2100	3000	3500
Size(W*L*H)(m0)	0.5*4.0*1.5	0.9*4.0*1.5	1.3*4.0*1.5	1.8*4.0*1.5	2.4*4.0*1.5
