

## *HSC-510570C Plastic Thermoforming machine (Automatic stacker)*

It is suitable to form BOPS, HIPS, PS, PVC, PET, Sheet that can produce boxes, trays, fast-food boxes, dishes and lids etc.

### **Technical Parameter**

Forming area	510X570mm
Forming depth	100mm
Sheet thickness range	0.15-1mm
Max. Sheet roller diameter	710 mm
Max. Cutting length	6350 mm
Air pressure	0.7Mpa
Water consumption	10升/分(Liters/min) 15-20°C
Air consumption	1200 升/分(Liters/min)
Speed	600-1200次/小时(cycles/hr)
Power	3x380V+N +PE, 50Hz
Preheater power	4kw
Mould plate heating power	4kw
Heating plate power	15kw
Max sheet width	650mm
Robot Horizontal move	1.0KW (Servo)
Robot Vertical move	0.4KW (Servo)
Weight	3000Kg
Dimension(L×W×H)	3500X1500X2150(mm)
