

## GFGFP-series Automatic Wine Filling Line

This machine is applicable to wine, white wine, juice, rice wine, soy sauce and vinegar, which can finish bottle filling with same level automatically.

- ◆ Low vacuum filling: avoid the foaming and leaking; and if there is defects in the bottle, filling will not be started
- ◆ Spraying filling: Liquid flows down along the sides of the bottles to ensure the filling quality
- ◆ No bottle broken: bottle holding devices can flexibly adjust bottle location, avoiding any possible bottle damage or even machine damage
- ◆ Long service life and easy maintenance
