

Meal Replacement Powder Stick Packing Machine XH-20 BF

Model XH-20BF, is a stick bag of Meal Replacement Powder Packaging Machine, It can process 30-70 single-serve packets per minute for a 5-10 gram powder products fill. The whole packaging machine has been strictly debugged before leaving the factory, It can be put into production after simple debugging after arrival. What's more, the machine occupies a small area and is flexible to use, so it is very suitable for the production of low-dose powder samples.

This powder packaging machine can complete automatic filling, automatic weighing, automatic packaging, automatic coding, cursor positioning, automatic cutting, and other packaging actions, with a wide range of packaging, such as coffee powder, seasoning powder, medicine powder, toner, etc., the sealing method is back sealing, the bag is beautiful and compact, suitable for a variety of packaging materials, including aluminum foil film, color film (need to add cursor positioning).
