

Food Conveyor Belt

The conveyor belt is made of food grade PU material and made by mold method, with good appearance, not easily deformed, bear high and low temperature.

The machine allow for controlled feeds at one or more locations and can easily interface with various types of feeding devices.

The conveyors is with easy installation and disassembly, the PU belt can be washed by water for both sides

Product features:

- *304 stainless steel sanitary construction and food grade plastic
- *Labor saving conveyor that allow for large volumes of materials movement
- *Reliable and dependable with low energy requirements
- *Resistant to corrosion and abrasion
- *Custom design available
- *Receive materials and deliver them to weigher
- *Require low maintenance
- *Easy clean-up

Technical Parameters:

- *Belt type : food grade plastic of polypropylene(PU)
- *Material of frame : stainless steel 304
- *Discharge height : 3200mm can be customized
- *Width : 300mm can be customized
- *Power supply : 1.1KW/1.5KW , 220V/380V , 50HZ/60HZ , 1P/3P
- *Capacity : 8m³/hour
