

## *Semi-automatic Cream Filling Machine RX-S-series*

RX-S semi-automatic cream filling machine which we adopted advanced techniques and designed the RX-S series. Our products are handy in operation, precision adjustment, volume adjustment, maintenance repairs and so on.

We substitute pneumatic components for electricity control circuit in the RX-S series piston fillers, so it is especially suitable for explosion-proof.

### **Main Features**

1. 20L Top Hopper and Liquid Transfer Valve.
2. For filling viscosity paste such as tooth paste, sauce and also thin liquid such as water
3. Filling range from 100 ml to 1000ml
4. Capacity 25 bottles/m
5. One filling nozzle
6. Leaking-Proof, Silk Nuzzling-Proof, Leakage recovery system
7. Machine construction material is mainly 304SS, the hopper and liquid contact parts are 316L stainless steel

## Technical Parameters

Items	RX-S-06	RX-S-12	RX-S-25	RX-S-50	RX-S-100
Filling Range	5-60ml	10-125ml	25-250ml	50-500ml	100-1000ml
Air Pressure	4-6kg/cm2		5-8kg/cm2		
Capacity	0-50bottles/min				
Accuracy	0.5-1%				
Voltage	AC220V 50/60Hz				
Power	10W				
Net weight	18.2kg	20.1kg	25.8kg	30.5kg	37kg
Gross weight	21kg	23kg	29.7kg	34.5kg	41.5kg
Size	844*290*731	911*290*731	1089*340*800	1180*340*828	118*340*828
