

Pillow Packing Machine

Pillow packing machine can automatically identify the length of the product, without manual adjustment, save labor, adjust the length of the packaging film more conveniently. Packaging with products, if no products will automatically stop, do not waste packaging materials, and can save 30% than the same line of the packaging film.

Product Features

1. Three servo controls, bag length is set and cut immediately, no need to empty, save time and film.
2. The Parameter setting is convenient and fast, can store 100 kinds of packaging parameters.
3. Fault self-diagnosis function, fault display at a glance.
4. High sensitivity photoelectric color mark tracking, mathematically input sealing and cutting position, make the sealing and cutting position more accurate.
5. Anti-cutting function, the knife-edge sensing product automatically sent out. Will not cut into the product, protecting the product and knife holder.
6. Automatic sensing products to packaging, no product walking paper, and the cutting knife does not move, no waste of envelope.

Application

It is suitable for double bag packing of small granular products, such as tea leaves, medicinal tea, and health care tea. Pillow packing machine is widely used in electrical appliances, lighting, furniture, doors or windows, bearings, door bars, hinges and food, medicine, daily chemical industry, hardware toys, and other industries, The packaging shape can also be customized to the customer requirements.

Product Parameters

Products Name	Pillow packing machine
Bag size(mm)	L80-1000 Single lane film width: 15-160mm
Packing Product thickness	5-55mm
Package form	Pillow type three-side bag
Packing material	PE/PT/OPP/PET/OPP
Packaging speed	30-260(depend on the products shape size)
Film width	100-400mm
Power specification	220V/5.5KW/50Hz
Gross weight	450kg
Machine Dimension	4000x940x1600mm
