

## *Sesame Oil Liquid Packaging Machine*

The sesame oil liquid packaging machine is a fully automatic and relatively high equipment with strong packaging production capacity, which is suitable for packaging various liquid materials. It can automatically complete the packaging functions such as metering, bag making, sealing, printing, and counting. The whole machine is made of stainless steel for easy cleaning. The parts in contact with materials are made of 304 sanitary stainless steel, which meets the national QS and GMP requirements.

### **Liquid filling and sealing machine:**

- Packing speed: 130-70 bags/min
- Bag length: 40-160mm
- Machine weight: 480KG
- Package weight: 1-120 grams (customizable)
- Packing error:  $\pm 0.2$ g (depending on different materials)
- Equipment size: 820\*980\*1680mm
- Voltage/power: 220V/1800w
- Packing range: nuts, peach gum, wolfberry, tea, seeds, grains and other granular products.
