

Detergent Powder Packing Machine GT-PM-VFFS-P420

1kg 5kg detergent Powder Packing Machine especially for packing the fine powder material. Such as coffee powder, milk powder, flour powder, spice powder, detergent powder, chili powder, masala powder, cocoa powder, baking powder, bleaching powder, chicken powder. It integrates metering, bagging, packing, sealing, date printing and counting into one.

Package material: BOPP/CPP/VMCPP, BOPP/PE, PET/VMPET, PE, PET/PE, etc.

Various bag types are available, e.g. pouch, back-sealing bag, linking bags, etc.

Details:

1. Packing Machine easy control system: colorful touch screen, easy operation, higher packing speed and efficient. with auto warning protection function to minimize loss.
2. Stainless Screw conveyor & measure: Automatic screw conveyor and measuring system with high precision weighing.
3. Powder Packing Machine Sealing and cutting device: Independent PID temperature control, thermal heating bilateral middle strip, the product back seal sealing, to ensure tightness.
4. Film Installation device: With the external packaging of film rolling device, the film is more smooth.
5. High Speed Date Printer: Print the producing and expire date flexible adjustment date format.

Features:

1. PLC computer system, function is more stable, adjustment any parameters not need stop machine.
2. Sever motor drawing film, position accurately.

3. Horizontal, vertical temperature control, suitable for various of mix film, PE film packing material.
4. Packing type diversification, pillow sealing, standing type, punching etc.
5. Food grade stainless steel 304, safe and durable.
6. Easy to operate and maintain, only need one worker.
7. With 4 temperature controllers. Each heating block is controlled with individual temperature controller to achieve higher temperature stability.

Parameter:

Model	GT-PM-VFFS-P420
Filling capacity	500g – 1000g
Packing film width	300-420mm
Finished pouch size	Length: 30cm Width: 20cm
Filling speed	20-40 bags/min
Filling weight accuracy	≥99.5%
Power supply	1500W, AC220V, 50Hz
Machine size	120cm*115cm*228cm
Machine weight	520kg
