

## *Honey Bottle Automatic Filling Machine 4 Heads Type*

This honey bottle automatic filling machine has 4 filling heads. 4 heads honey automatic filling machine is suitable for filling various round and shaped bottles like plastic bottle, glass bottles, jars and cans. It adopts piston quantification, integrating electro-mechanical and pneumatic in one. The electrical and pneumatic components are selected from world famous brands and controlled by PLC. The design is reasonable, the structure is compact, the appearance is beautiful, the performance is stable and reliable, the filling precision is high, the adaptability is strong, and the operation is simple. Easy to maintain and so on. Honey bottle automatic filling machine is designed for viscous liquid and sauce such as pulp beverages, honey, syrup, jam, peanut butter, ointment, cosmetics, glue and various pastes in pharmaceutical, daily chemical, chemical and food industries.

### **Features:**

1. Adopt electrical and pneumatic components of world famous brands. The failure rate is low, and his performance is stable and reliable. The service life is long;
2. The contact with the material is made of stainless steel, easy to disassemble, easy to clean, in line with food hygiene requirements;
3. The filling amount and filling speed are simple to adjust, and there is no bottle filling function, the liquid level is automatically controlled to feed, and the appearance is beautiful;
4. No need to replace the parts, you can quickly adjust and replace the bottles of different shapes and specifications, the applicability is strong;
5. The filling nozzle is equipped with anti-drip device to ensure that there is no drawing and no dripping;
6. High filling precision, large measuring range, quick installation design, quick and convenient cleaning and maintenance.

## Technical Parameters:

- Optional models: 5-100ml, 10-280ml, 20-500ml, 100-1000ml, 500-2800ml 1000-5000ml
- Number of filling heads: 2 heads, 4 heads, 6 heads, 8 heads
- Power: 220V 50/60HZ 300W
- Air pressure: 0.4-0.6mpa
- Filling speed: 10-40 bottles / min
- Filling accuracy:  $\pm 1\%$
