

Automatic Lavazza Coffee Capsule Filling Sealing Machine

Customized Fully Automatic Lavazza Coffee Capsule Filling Sealing Machine. Improve productivity and shorten production cycle> Save labor and reduce production cost> The utility model has the advantages of wide application range, high speed and automatic packaging of different kinds of products.

Project Constitution

- > Empty capsule lifter
- > Automatic sort cup and put out one by one
- > Servo motor driven filler auger
- > Roll film type twice cut and seal system
- > Finished capsule conveyor out
- > Automatic count quantity and connect to flip-flop divertor
- > Pillow bag packing machine
- > Reject unqualified capsules

System Feature

Improve productivity and shorten production cycle> Save labor and reduce production cost> The utility model has the advantages of wide application range, high speed and automatic packaging of different kinds of products.

Technical Parameter:

Hopper Capacity	10-24L (set by customer)
Capacity Speed/Hour	150-200cups/minute
Filling weight range	0-20g*n (set by customer)
Accuracy	±0.05~0.15g
Voltage	220V/380V 50/60hz need confirm by customer
Installed Dimension (LxWxH)	4800x2100x2700(mm)
Weight	1700kg
Gross Weight	1900kg
