

Automatic Wet Glue Labeling Machine (Paste Labeling Machine) STL-G

Brief Introduction:

This wet glue labeling machine is suitable for paper label. It is widely used for all kinds of round bottles/ jars/ cans etc. Both glass bottles and plastic bottles are ok. Also the machine is adjustable to fit different diameter and height bottles.

Features:

1. Based on screw bottle entering, bottles moving are steadier.
2. Label box can be adjusted to satisfy different labeling request.
3. The size of label box can be changed according to different label size. The operation is convenient and easy.
4. The machine is equipped with a glue pump, the glue can be used circularly. The flowing of glue also can be controlled to satisfy different labeling request.
5. Paper label can save much cost than sticker labels.

Parameter:

Model	STL-G
Speed	40~80 bottle/min
Bottle diameter size	Φ55-110mm
Label Size	Height:20-150mm Length:80-314mm
Precision	± 2 mm (for wrapping around the can)
Power	0.5KW
Voltage	AC 220V ; 50Hz
Weight	550KG
Dimension	2000×800×1200mm
