

## *MTP-14/16 Tablet Press*

MTP-14/16 Tablet Press features small size, light weight, large load, stable transmission, high automation and easy operation, etc.

It is special multifunctional equipment with wide applicability in medicine factory, research& development centre, lab, hospital and drugstore for small batch production.

### **Features:**

- Design of GMP
- Double impeller force feeder
- Auto tablet weight control
- Double forming process
- Reliable safety sealing& dust-proof system
- Easy remove parts, easy operation and maintenance
- High visibility isolated windows

### **Main Characteristics:**

- High Pressure
- Super Large Tablet
- Shaped Tablet
- High Quality
- High Automation

**Technical Parameters:**

Model		MTP-14	MTP-16
		EU-D	EU-B
		TSM-D	TSM-B
Number of Stations		14	16
Max. Output (tablets/h)		42,000	48,000
Max. Tablet Dia. (mm)	Round	25	16
	Shaped	25	19
Max. Depth of Fill (mm)		20	16
Max. Tablet Thickness (mm)		8	
Max. Compression Force (kN)		80	
Max. Pre-comp. Force (kN)		10	
Main Motor Power (kW)		3.2	
Power Supply		According to the requirement of customer	
Overall Dimension (mm)		798x965x1,675	
Weight (kg)		900	
Unload Noise (dB (A))		≤82	
Note		The max. output refers to the quantity of pressing little tablets from ideal granular.
