

KD-600S and RS-600W Flow Wrap Machine

This machine is to produce pillow packaging machinery, in basis improvement, innovation equipment. Solve the domestic heat shrinkable film packaging speed low, expend artificially conundrum, mechanical covering film speed, packaging and beautiful, also can container bag, automatic printing production batch number. Suitable multi-function heat shrinkable packing machine, apply to boxes, bags. There are rules a single object, the block material heat shrinkable packaging, widely used in the food, food, pharmacy, chemical industry, etc such as boxes mosquito-repellent incense, cosmetics, bag, gift boxes, photo album, disposable tableware, towel, hardware Japan, and all sorts of automobile and motorcycle parts of heat shrinkable packaging

Scope of application:

Suitable for packing all kinds of irregular solid, bulk, long strips and soft objects, just like, instant noodles, sausages and sockets switch clean ball, etc.

Technical Data:

Model	KD-600S	RS-600W
Max.film width	590mm	590mm
Max packaging capacity (according to its material to fix)	40-180 times/min	50-120times/min
Suitable film thickness	0.03-0.06mm	0.03-0.06mm
Length of bags	65-350mm	60-350mm
Packaging with	25-280mm	25-280mm
Packaging height	20-100mm	20-100mm
Total power	2.7Kw 220V 50hz	7.85w 220V 50hz
Overall dimensions (L x W x H)	4200x1200x1750	7000x1200x1500
Weight	780kg	1000kg
