DGD20-4/30-6/60-8 Can Beer Filling Machine

The can beer filling machine is special designed for medium capacity brewery. The can beer filling line has easy operating with high efficiency. The working flow includes CO2 purge, filling and then sealing the caps.

The can beer filling line adopts the automatic PLC touch screen control system, and the speed can be regulated forever as customer requirements within the scope. The can filling machine adopts the high quality of stainless steel 304 material, meets the requirements of food grade.

Technical Parameter:

Model	Capacity (based on 330ml)	Overall dimensions (L*W*H)	Power	Weight
DGD20-4	50~200 B/M	2950×1850×2000 MM	5.5	5400
DGD30-6	50~300 B/M	3488×2288×2168 MM	7.5	8000
DGD60-8	50~600 B/M	3650×2450×2100 MM	11.5	12000
