

## *XCQ Dust Collector*

XCQ Dust Collector is widely used in collecting industrial dust from the pharmaceutical, foodstuff and chemical industries. The X Dust Collector is made from stainless steel and is an essential ancillary device for tablet presses, capsule filling machines, pulverizers and counting machines. This machine has excellent corrosion resistance and does not pollute the material being collected, allowing it to be recycled. It is equipped with a silencer, which reduces noise.

### **Features:**

- High volume of exhaust air and high vacuum suction.
- High quality stainless steel structure.
- Simple operation and easy maintenance.
- Stable performance and low noise.

Technical Parameters:

Model	XCQ-110	XCQ-150	XCQ-220	XCQ-300
Power (KW)	1.1	1.5	2.2	3.0
Voltage (V)	380			
Max. flow (m/h)	135	175	210	300
Max. pressure (Kpa)	<12	<13	<18	<20
Vacuum degree (Kpa)	16	18	20	21
Weight (kg)	55	55	80	100
