

## *DPH-260 Blister Packaging Machine*

DPH-260 Blister Packaging Machine is a high speed blister packaging machine and suitable for plastic thermoforming and aluminum cold forming blister packaging. The machine accommodates forming material reels of up to 600mm in diameter and a waste material trimming cutter, which allow production runs of approximately 90 minutes therefore reducing the material replacement frequency. DPH-260 Blister Packaging Machine is equipped with integrated forming material splicer to enhance efficiency. Automatic format positioning system achieves straightforward format changeover. Window frame type no-waste-trimming cutter saves packaging materials. Adopts transverse cutter which easily collects its blister card and rejects faulty blister.

### **Technical Parameters:**

Max. Speed	ALU/ALU: 100 punches/min.
	ALU/PVC: 200 punches/min.
Max. Output	600 blisters/min. (ALU/PVC blister size: 57×80mm)
Max. Forming Area	245×180mm
Max. Forming Depth	12mm
Max. Material Width	260mm
Power	15kw
Dimensions	4800×1250×2000mm
Weight	2500kg
