

HW-8200 Candy Bag Given Packaging Machine

Full automatic premade pouch bagger, featured with rapid reaction, reliability and quick changeover, is ideal for a large variety of bag types and range. Equipped with Auger filler and Auger elevator, it is widely applied to different kinds of powders

Features:

1. Reducing material loss.
2. Can be equipped with remote diagnostic system, help customer to troubleshooting in minimum duration.
3. The packing machine with self-lubrication system, prolongs mechanism life, and reduces labor cost
4. The packing machine with pouch width adjustable mechanism, unit can be converted to different pouch just by one button in few seconds
5. Unit made by highly strict manufacturing process, most components are provide by international top brand
6. Comply with international safety & hygienic regulation, each unit shall pass safety, rush, and physical properly and function test
7. Attractive appearance, simple operation, reliable performance, low failure rate

Specifications:

Model		HW-8200
Pouch Type		Stand-up bag, Gusseted bag, Handle bag, Paper bag, Zipper bag
Working Station		Eight working station
Pouch	W	80-220mm
	L	100-300mm
Capacity		Up to 50 bags/ min (product property and filling range count)
Filling Range		0-3000g
Dosing Systems		Multi-head combination scale, Linear scale, Volumetric cup, Auger filler, Piston filler, etc.
Voltage		AC380V/50Hz, three phases (or customize)
Power		3.5KW
Air Source		0.4 CBM/ min (offered by the user)
Machine's Dimension		2200x1850x1500mm
Machine's Weight		1250Kg
