

LTPK LT-220 Automatic Round Bottle Labeling Machine

This full automatic round bottle labeling machine is designed for single side label. It can transfer the bottle, separate stickers and label them on bottles precisely. Equipping with date printer to print production date is also available. Auto labeling machine help you improve working efficiency.

Application

This machine is mainly used for label single side sticker on round bottle products. Like juice bottles, water bottles, toner bottles. Auto labeling machine ensure the application and working speed.

Technical Parameters

Model	LT-220
Label length	30~300MM
Label width	30~150MM
Suitable bottle diameter	φ20~120mm
Outside diameter of standard roll	φ280MM
Inside diameter of standard roll	φ76MM
Labeling accuracy	±1.0MM
Machine Weight	About 250KG
Frequency	50HZ
Voltage	220V
Power	1100W
Conveying speed	16m/min
Marking speed	5~19m/min
Labeling speed	30~160 PCS/min
Dimensions	About 2000*900*1500mm
