

## ***ZX-D High Speed Granule Feeder***

The application of higher ground in the low increase the supply of materials through the shaking table in the machine automatically after hopper up the delivery of continuous operation. Vertical Packaging Machine for matching, computer measurement of machine design, applied to food, medicine, chemical industrial products, screws, nuts and other products. According to the nature of transmission in different materials, you can choose metal, stainless steel, ABS plastic, such as the manufacture of different materials. Transmission capacity in accordance with transmission speed of adjustment, and with the need to enhance the high degree of choice.

### **Technical Parameters**

<b>Model</b>	<b>ZX-D</b>
Upgrading of	1.5-3m <sup>3</sup> /h
Hopper Volume	150-230L
Power Supply	380V 50-60Hz
Total Power	2.7KW
Total Weight	260kg
Outlet Hight	above the floor 2000mm
