

SPM-60 Full-Automatic Hard Capsule Filling Machine

SPM-60 Full-Automatic Hard Capsule Filling Machine is an intermittent motion and whole plate type filling fully automatic capsule filling equipment. It adopt optimization design combined the characteristics of Chinese medicine and the requirement of GMP, it has the characteristics of compact mechanism, small volume, lower noise, precision filling dosage, multi-function, running stably etc. It can finish the following motion at same time: capsule feeding, capsule separating, powder filling, capsule rejecting, capsule locking, finished capsule discharge and module cleaning etc. It is the most ideal hard capsule filling equipment for pharmaceutical and health food industry.

Technical Parameters:

Model	SPM-60
Production Capacity	36000 pcs/hour
Capsule Size	# 00---#5 and A---E safety type capsules(need to change the spare parts/mould accordingly)
Filling Dosage	Powder/ Pellet/ Tablet
Noise	< 75 dB
Power	380V, 50Hz, 2.2 Kw
Packing Size	1660*1000*2150 mm
Packing Weight	900 Kg
