

## HC-130/180 Horizontal Flat Bag Packing Machine For Powder/Granule/Liquid

Horizontal flat bag packaging machine HC-130/180 is an ideal bag packaging equipment that meets the requirements of high-quality packaging and is smaller in size. The packaging speed is fast, and it can realize three-side sealing and four-side sealing bags; Packaging needs for various materials such as liquids, pastes, and solids; roll film forming is used to reduce packaging costs.

### Technical Parameters:

Model	HC-130	HC-180
Type of Pouch	3/4 side seal	3/4 side seal
Min. pouch size	50×75mm	60×75mm
Max. pouch size	130×180mm	180×210mm
Packing speed	<60 bags/min	<60 bags/min
Packing range	200ml	400ml
Filling station	1 station	2 station
Power	5kw	5kw
Volt	380V 3P 50Hz	380V 3P 50Hz
Air consumption	300L/min	300L/min
Air pressure	0.6MPa	0.6MPa
Machine weight	800kg	1400kg
Machine dimension	2850×1000×1450mm	3350×1000×1450mm
